# B36

## REBAR BENDING CAPACITY UP TO 36 mm

| MAX Ø 36 mm | 3KW MOTOR | 225 kg |
|---|---|---|

- ☑ Reinforced gearbox housing
- ☑ Precision hardened bushs and pins
- ☑ Industrial grade motor
- ☑ Heavy duty frame construction
- ☑ Thermal overload protection

B36 is engineered for heavy-duty rebar bending operations,combining structural strength with precision performance.Designed for demanding job sites, it delivers stable bending results with masmum durability.

| Mod | B36 |
|---|---|
| Power | 3 kw |
| Speed | 9 bends/min |
| Weight | 225 kg |
| Size(cm) | 84x85x81 |
