# B52

## REBAR BENDING CAPACITY UP TO 52 mm

| MAX Ø 52 mm | 4KW MOTOR | 410 kg |
|---|---|---|

- ☑ Reinforced gearbox housing
- ☑ Precision hardened bushs and pins
- ☑ Industrial grade motor
- ☑ Heavy duty frame construction
- ☑ Thermal overload protection

B52 is engineered for heavy-duty rebar bending operations,combining structural strength with precision performance.Designed for demanding job sites, it delivers stable bending results with masmum durability.

| Mod | B52 |
|---|---|
| Power | 4 kw |
| Speed | 9 bends/min |
| Weight | 410kg |
| Size(cm) | 88x88x83 |
