C32

REBAR CUTTING CAPACITY UP TO 32 mm

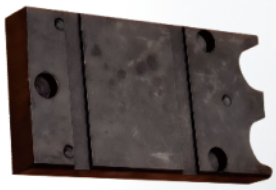

MAX Ø32 mm	3KW MOTOR	305 kg

- ☑ Reinforced gearbox housing
- ☑ Precision hardened blades
- ☑ Industrial grade motor
- ☑ Heavy duty frame construction
- ☑ Thermal overload protection

SUPER BLADE
Material: H13
Each blade have
Four sides each
Side can cut
More than
2 Months

Alloy steel friction plate
Make the connecting rod
long working life

Mod	C32
Power	3 kw
Speed	32 cuts/min
Weight	305 kg
Size(cm)	120x41x72

C32 is engineered for heavy-duty rebar cutting operations, combining structural strength with precision performance. Designed for demanding job sites, it delivers stable cutting results with masmum durability.
