C36

REBAR CUTTING CAPACITY UP TO 36 mm

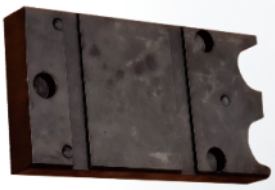

MAX Ø36 mm	3KW MOTOR	316 kg

- ☑ Reinforced gearbox housing
- ☑ Precision hardened blades
- ☑ Industrial grade motor
- ☑ Heavy duty frame construction
- ☑ Thermal overload protection

SUPER BLADE
Material: H
Each blade have Four sides each Side can cut More than 2 Months

Alloy steel friction plate Make the connecting rod long working life

Mod	C36
Power	3 kw
Speed	32 cuts/min
Weight	316 kg
Size(cm)	120x41x72

C36 is engineered for heavy-duty rebar cutting operations, combining structural strength with precision performance. Designed for demanding job sites, it delivers stable cutting results with masmum durability.
