C52

REBAR CUTTING CAPACITY UP TO 52 mm

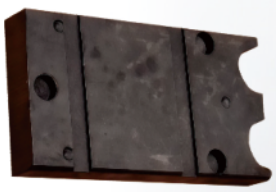

MAX Ø52 mm	5.5KW MOTOR	525 kg

- ☑ Reinforced gearbox housing
- ☑ Precision hardened blades
- ☑ Industrial grade motor
- ☑ Heavy duty frame construction
- ☑ Thermal overload protection

SUPER BLADE
Material: H
Each blade have
Four sides each
Side can cut
More than
2 Months

Alloy steel friction plate
Make the connecting rod
long working life

Mod	C52
Power	5.5 kw
Speed	32 cuts/min
Weight	525 kg
Size(cm)	138x50x82

C52 is engineered for heavy-duty rebar cutting operations, combining structural strength with precision performance. Designed for demanding job sites, it delivers stable cutting results with masmum durability.
