C55

REBAR CUTTING CAPACITY UP TO 55 mm

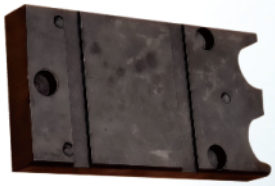

MAX Ø55 mm	7.5KW MOTOR	900 kg

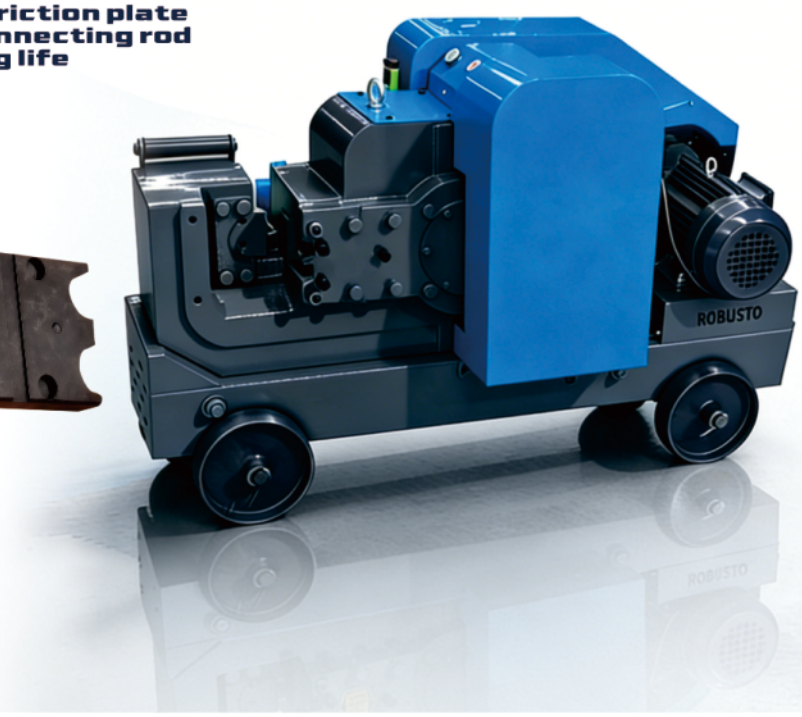

- ☑ Reinforced gearbox housing
- ☑ Precision hardened blades
- ☑ Industrial grade motor
- ☑ Heavy duty frame construction
- ☑ Thermal overload protection

SUPER BLADE
Material: H
Each blade have
Four sides each
Side can cut
More than
2 Months

Alloy steel friction plate
Make the connecting rod
long working life

Mod	C55
Power	7.5 kw
Speed	32 cuts/min
Weight	900kg
Size(cm)	153x62x90

C55 is engineered for heavy-duty rebar cutting operations, combining structural strength with precision performance. Designed for demanding job sites, it delivers stable cutting results with masmum durability.
